However, even for highly qualified candidates, becoming a Medical Science Liaison (MSL) is a challenging endeavor. It's very difficult to achieve on one's own without the proper preparation and guidance.

Dr. Samuel Dyer will share his years of experience as an MSL hiring manager at some of the world's leading pharmaceutical companies and as CEO for the Medical Science Liaison Society. He will explain the tasks an MSL encounters and what it takes to break into an MSL career.
