

## Digital Media for Teaching and Learning Personalized Professional Master's Degree™

### Is It Right for You?

The Personalized Professional Master's Degree in Information and Learning Technologies was created for K-12 educators who wish to use digital and learning technologies in their teaching.

You will learn how emerging digital and networked social tools and technologies can be used to enhance student learning in your classroom.

With a Personalized Professional Master's Degree, you will gain a solid foundation for success combined with skills that fit your educational needs and your unique goals.

The Personalized Professional MA in Information and Learning Technologies (ILT) with a concentration in Digital Media for Teaching and Learning prepares K-12 educators to integrate technology-rich experiences across classroom, school, online and community settings to support students' academic and interest-driven learning.

The growth of digital and networked social tools, technologies and environments are affecting the ways in which people learn, in and out of

schools. The Digital Media for Teaching and Learning concentration helps you learn how to leverage technologies, design projects and facilitate activities that engage students in meaningful and equitable learning.

Our goal is to help you have a transformative impact on student learning, creativity and achievement, while also supporting you as a technology leader and innovator in your school and professional networks.

### A Reputation that Opens Doors

We are nationally ranked among the top schools for education – among schools generally and among online programs. The Personalized Professional Master's Degree in Information and Learning Technologies empowers you to reach out to students and connect to their interests and passions, using the best pedagogy available for classroom and online learning.

## A Master's with More Choices Means a Career with More Opportunities

Fuel your passion and your career while maximizing your students' engagement and achievement with a Personalized Professional Master's Degree from CU Denver's School of Education & Human Development.

Join an innovative program that provides courses to deepen your expertise in Digital Media for Teaching and Learning. At the same time, this path allows you to customize your curriculum by selecting from courses outside of the main area of focus according to your own needs and interests. You can choose from interdisciplinary courses on a variety of themes.

### How It Works:

#### Step 1. Select your Master's of Information and Learning

##### Technologies concentration:

- Digital Media for Teaching and Learning

#### Step 2. Personalize your program with 15 credit hours of courses from the following thematic course categories:

- Diversity and Inclusion
- Families and Communities
- Language, Literacy and Culture
- Leadership
- Learning and Development
- Pedagogy, Instruction and Assessment
- Social Emotional Growth
- Teaching and Learning  
*(Digital media courses are included here.)*

If you plan on pursuing an endorsement, please consult our admissions team for more information. We have a separate MA in Information and Learning Technologies with an endorsement option.
