The University of Colorado Denver Anschutz Medical Campus seeks individuals with demonstrated commitment to creating an inclusive learning and working environment. We value the ability to engage effectively with students, faculty, and staff of diverse backgrounds.

A postdoctoral position is available to work with Dr. Juan-Pablo Idrovo in collaboration with Dr. Elizabeth J. Kovacs in the Department of Surgery at the University of Colorado Denver Anschutz Medical Campus. The laboratory works on multi-organ system inflammatory responses and innate immunity in the context of tissue injury after trauma. The current focus is "Hepatic Response in Advanced Age after Burn Injury."

The successful candidate must be a highly motivated and career-oriented person with < 2 years of post-doctoral experience, and a Ph.D. in immunology, microbiology, cell biology, biochemistry or a closely related field. They should have experience working with animal models and/or human specimens and basic molecular biology and cell culture skills.

Outstanding oral and written communication skills (English fluency) are also required. The ability to work independently and in collaboration is essential. Qualified applicants should have multiple first-author research papers published in peer-reviewed journals.

Note: Applicants for this position must be eligible for appointment to a NIH T32 Training Grant (i.e., U.S. citizens or permanent residents). Eligibility requirements for T32 training grants can be found at https://researchtraining.nih.gov/programs/training-grants/T32.

Minimum Qualifications:

The successful candidate must be a highly motivated and career-oriented person with < 2 years of post-doctoral experience, and a Ph.D. in immunology, microbiology, cell biology, biochemistry or a closely related field. They should have experience working with animal models and/or human specimens and basic molecular biology and cell culture skills.

Outstanding oral and written communication skills (English fluency) are also required. The ability to work independently and in collaboration is essential. Qualified applicants should have multiple first-author research papers published in peer-reviewed journals.
Salary and Benefits:

Salary is commensurate with skills and experience. The University of Colorado offers a full benefits package. Information on University benefits programs, including eligibility, is located at Employee Services.

The University of Colorado Denver is dedicated to ensuring a safe and secure environment for our faculty, staff, students and visitors. To assist in achieving that goal, we conduct background investigations for all prospective employees.

The Immigration Reform and Control Act requires that verification of employment eligibility be documented for all new employees by the end of the third day of work. Alternative formats of this ad are available upon request for persons with disabilities.

Your total compensation goes beyond the number on your paycheck. The University of Colorado provides generous leave, health plans and retirement contributions that add to your bottom line.
